

WELCOME

Hey, thanks for grabbing these. They're a few extra pages that aren't in the book, so they're yours to print and color however you want.

No rules here. One color or twenty, neat or all over the place, doesn't matter. Just have fun with them.

GOT THE BOOK?

If you picked up *Overgrown Worlds* and liked it, a quick review really does help. It's mostly how new people find the book. Haven't got it? No worries, skip this part.

Either way, glad you're here.

Keep creating. Keep exploring. Keep it simple.
